We offer assistance locally as well as through a vast network of sources available through the IAJGS, JRI-Poland & JewishGen. Genealogy is the search for ancestors and relatives, both living and deceased. It is also the study of the culture, political conditions, lifestyles, and the history of our ancestors, as well as the shtetls and countries they lived in. We offer encouragement, assistance to begin your search, to find resources, to overcome roadblocks and to celebrate your genealogical victories.
