Mission: LitvakSIG is the primary internet source connecting researchers of Lithuanian-Jewish Genealogy worldwide. Our purpose is to discover, present and preserve information about our ancestors' lives in Lithuania, and to better understand the lives they led, before the destruction of 95% of Lithuanian Jews in the Shoah.

Update: The year 2005 has shown an increase in the amount of translations completed for LitvakSIG, both for Vital Records Project and for other documents such as Revision Lists, Tax and Voter Information, Postal Savings Records, and many others. New translations are continuously added to LitvakSIG's "All Lithuania Database," and new articles on our Online Journal. We are continuously working to update our website. For more information, go to our Home Page www.jewishgen.org/Litvak, where you can sign up for the LitvakSIG Daily Digest and pursue other links to our various projects.
