Contacts: Nicole Berline, Warszawa Research Group Coordinator

Hadassah Lipsius, Warszawa Research Group Database Coordinator

Membership: 415

Mission: The primary mission of the Warszawa Research Group is to facilitate communication and cooperation among researchers interested in the Capital City of Warszawa. The Warszawa Research Group has undertaken the massive project of researching and indexing City business directories and life cycle information on the Warszawa community. We have begun with several projects and there is so much more to do. The Warszawa Research group discussion group is hosted by JewishGen.

Update: In 2005, the Warszawa Research Group continued its efforts in indexing Warszawa homeowner's list and business directories. Our team of volunteers progressed on the 1832, 1896 and 1897 homeowners lists. Our new project which is currently in progress is to index the information from the 1882 book by Samuel Jevnin titled Sefer Nahalat Olamim, which is a compilation of the tombstone information from the Warszawa Cemetery. The Research Group has obtained a scanned copy of this 19th Century book and is working diligently to complete the project.
